HERE'S WHAT YOU GET IN

# STONEVILLE 2-B ('53)

*... The Perfectly Balanced Cotton*

*This new strain* of STONEVILLE 2-B ('53)\* combines in *perfect balance* all the characteristics of a good cotton to give you a variety with an outstanding performance record in the field and in Experiment Station Tests. A continuous improvement program has produced in STONEVILLE 2-B ('53) a new strain which maintains its position as the measuring standard of top quality cotton. Particular effort has been extended in maintaining its high degree of adaptability to varying climatic conditions and soil types. STONEVILLE 2-B ('53) is exceptionally uniform in plant type. It has a large round boll with excellent hand-picking qualities,

uniform fiber, high tensile strength and low nep count. It is a favorite with farmers, ginnermen, merchants and mill men.

With a record of year-in and year-out dependability, along with our continuing program of maintenance and improvement, STONEVILLE 2-B ('53) provides growers everywhere with the perfect all-around cotton.

\*Strain 5235

**Remember . . .**

**THERE'S NO SUBSTITUTE FOR GOOD SEED**

No, there is no substitute for the best. In cottonseed, this means seed *direct from the breeder*. When you buy seed from Stoneville Pedigreed Seed Company, you are getting pure, scientifically-developed strains which are high in prepotency and productivity. We are originators and breeders of superior cottons.

## Facts
